

My Grades in Blackboard

Problem

I am having trouble finding my grades in Blackboard

Possible Solutions

- Most instructors make the My Grades tool available on the course menu.
- For instructions on checking grades and feedback in Blackboard, view this [Blackboard Help page](#).
- Instructors may not release grades until everyone in the class has submitted an assignment or completed an assessment.
- If you feel you haven't received a grade within a reasonable time frame, please contact your instructor via their preferred communication method.
